FAUCET

FOCUS ON HIGH END STAINLESS STEEL SANITARY WARE

The simple design integrates the classic life concept, and the exquisite craftsmanship contains the flavor of the times.

Light and shadow condensed and scattered, time precipitated forever. The perfect combination of black and white, the beautiful and beautiful appearance, the infectious texture, permeate the temperament of personality and style, show the true feelings in detail, and inherit the exquisite skills. Exquisite, stable, the perfect combination of art and fashion reflects perfect pursuit and professional quality.

XIAMEN PESHON SANITARY CO. LTD

304 stainless steel sanitary ware manufacturer

ELEGANT BUT NOT SIMPLE!

XIAMEN PESHON SANITARY CO.LTD is dedicated to the exquisite and perfect 304 stainless steel and 316 stainless steel faucets!

It was founded in 2001, located in Shuixian Road, Xiamen city, Fujian province, which is known as "Plumbing sanitary ware base of China".

In the past 24 years, Peshon has created a blueprint with its professional product design and technological development.

It has become a professional manufacturer, specializing in the production of 304 stainless steel and 316 stainless steel sanitary ware. And integrating with research & development, mold manufacturing, production and marketing.

Products include exposed shower, concealed shower, thermostatic shower, bathtub faucet, pull-out kitchen faucet, touch-sensitive faucet, basin faucet, bidet spray and other accessories.

Both 304 stainless steel and 316 stainless steel are high hardness and durable materials, which is anti-corrosion, rust resistance and can adapt to various harsh environments.

Mature technology of casting, control of details and advanced CNC bring up high quality products. Multiple series and abundant colors satisfy different customer's demands.

Some of series are in hot sale, and colors include brushed nickel, matt black, matt white, brushed gold, brushed rose gold, copper rose gold, mirror, gun grey, gun black and so on.

Kinds of color processing is one of our advantages, for gold and rose gold color, we use PVD, for gun grey and gun black color, we use galvanic plating, while for matt black color, we use stoving varnish or galvanic plating.

We face to high-end markets such as North America, Oceania and Europe and , in order to meet the market requirements, we apply for certificates such as cUPC, WaterMark, NSF, CEC and CE, and we will apply for more in the future to cover the markets widely.

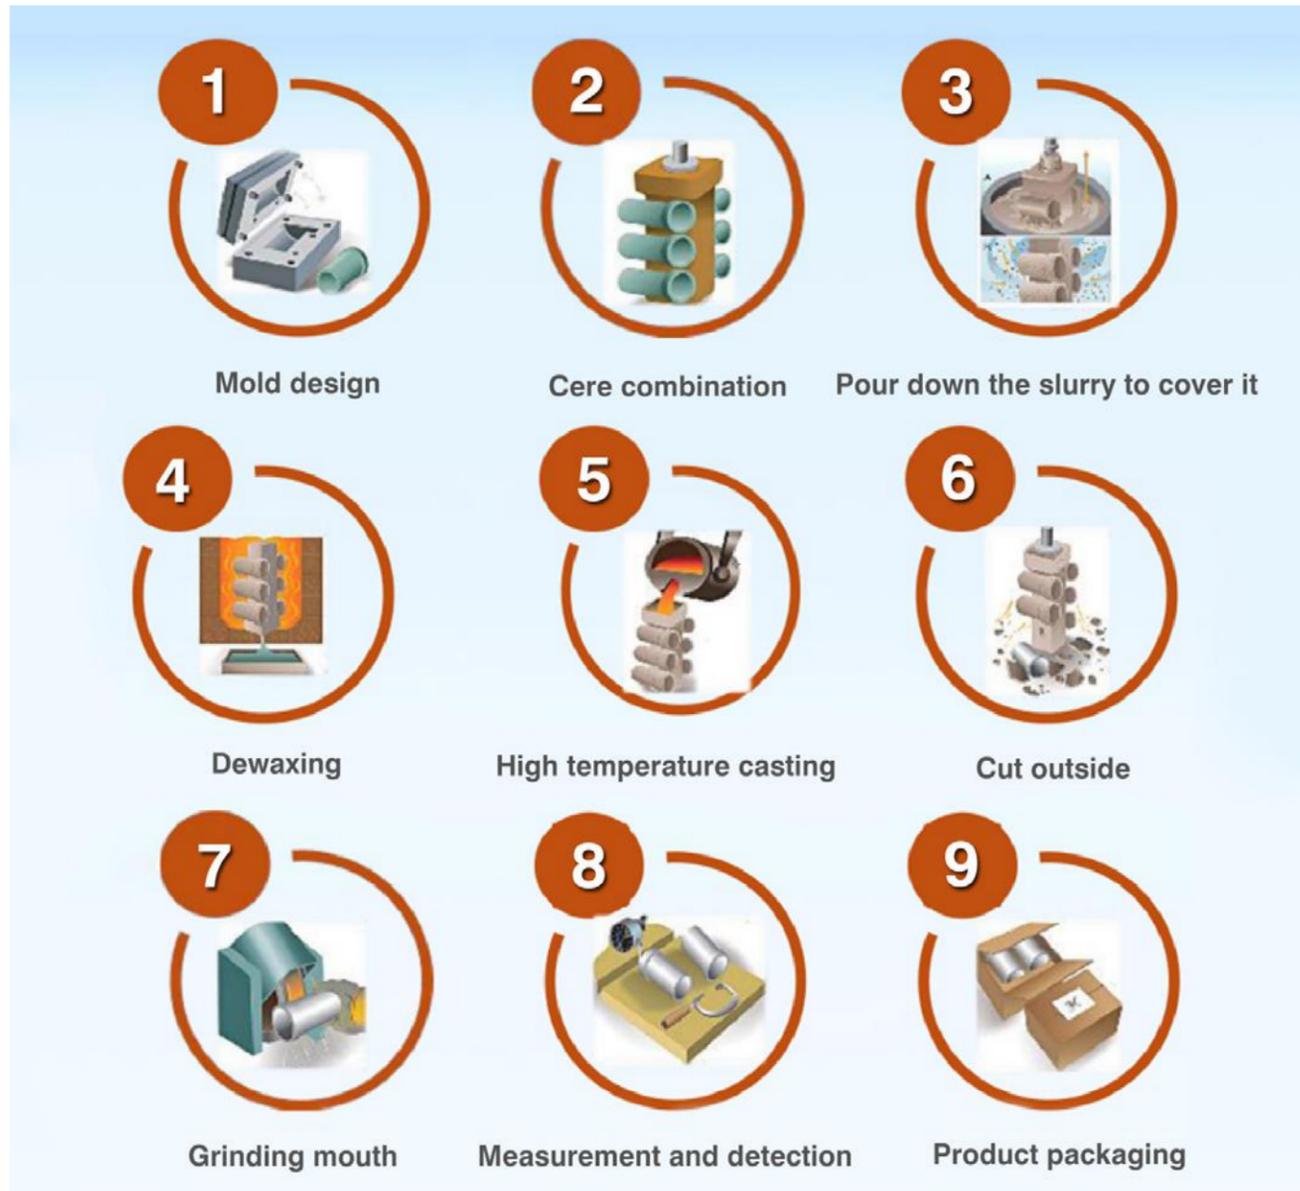

Besides, Peshon adheres to independent design and obtains more than 10 product patent certificates. With high quality and good service we received a lot of recognition and praise from customers.

In the future, Peshon will continue to uphold the independent design and the strict processing technology to display more and more 304 stainless steel and 316 stainless steel sanitary wares for customers.

Elegant but not simple!

Peshon is looking forward to meeting you!

PRODUCTION PROCESS

1. Product research and development and Mold manufacturing

2. Precise casting

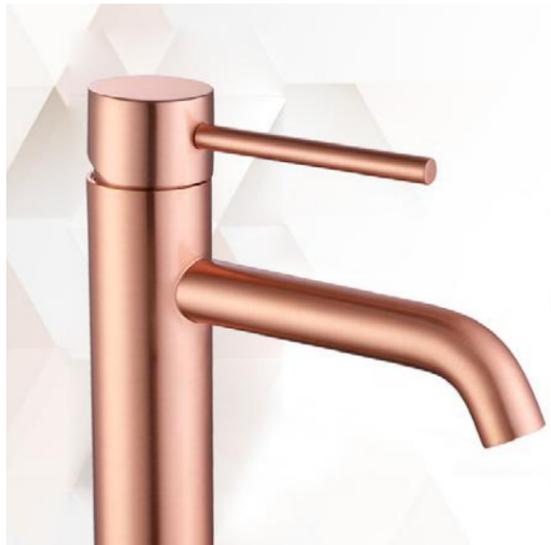

3. Surface polishing and Part of the machine display

4. Water testing and Assembly and package

1 Perfect design, excellent quality

Developing and designing different styles of products, we have the advantages in appearance, quality and price. With brand-new design concept, we integrate aesthetics and artificial science to make products diversified. We also focus on product quality, to launch new products continuously and perfect the details basing on the originals.

2 Lead-free materials, quality assurance-304 stainless steel

Pursuing unique design and complete functions, we pay more attention to the health of user. Comparing with ordinary faucets, our faucets are made of high-quality stainless steel, which are healthy to human body. All people-oriented.

3 High-requirement for casting process

High-requirement for production processes, which include Wax pattern injection->Wax pattern modification->Sand mold coating->Sand mold drying and forming->Smelting->Body forming->Cleaning->pickling->Rough blank completion. With these complex and refined crafts, a perfect product comes out.

4 Particular surface treatment

High-quality stainless steel, smooth surface, no burrs, no sharps, no pores, clear, clean, bright and durable.

5 Product supports customization of various colors

BASIN MIXER

The elegant shape is extraordinary, the dignified style and the steady streamline shape complement each other, creating a sense of penetration and flow in the space. The unique style is manifested in the quietness. This wonderful combination moves in unconscious moments and nourishes the entire universe. It is beautiful and enjoys the heart.

Gray space is the extension, transition, or conversion interval of space.
It is a fuzzy space and a fun space.

Discovering beauty is the joy of exploration, and shaping beauty is the pursuit of art. The lines are round and bright, the color is soft without losing stability, the appearance is concise and noble, extremely beautiful and infectious, the perfect fusion of nature and life, which reflects the spirit of fashion in ordinary.

Even high quality.

Why is this better choice?

316 stainless steel is integrated into metal molybdenum on 304, which can consolidate the molecular structure of stainless steel, so that it is more abrasion resistant to oxidation, and the corrosion resistance is also greatly increased.

Art exists only for creativity and expression of life. Attractive visual manifestations and simple and stylish lines of the atmospheric appearance, hard and soft perfect casting, such as moonlight-plated fashion texture and exquisite excellent craftsmanship, is a true interpretation of "full art boutique". At the same time, the faint light color is constantly showing people the elegant feelings of the master.
